Subject: Rubblized Concrete

This question keeps popping into my head, so I'm going to ask it. Would the disposal of the rubblized concrete on-site at CFAC mean that a new solid waste disposal facility has been constructed? If yes, does it have to meet outright RCRA or the intent of RCRA, if CERCLA? If it is a CERCLA approved action, how is that memorialized?

I'm going to call you, I hope, between 8.30 and 9. The rest of my day is booked.
